

## Visual differences between Metric and Inch Fittings

Elbow and Tee joints have no shoulder step on the forging. All metric forgings are stamped "MM" for identification.

Inch Tube Fittings

Metric Tube Fittings

Stepped Shoulders Indicate Metric Tube Fittings

## SUS 316 Tube Fittings

are composed of four parts :

- 1) body
- 2) front ferrule
- 3) back ferrule
- 4) nut

760 LB Back Ferrule	760 LF Front Ferrule	760 LI Tube Insert	761 L Nut	762 L Union	763 L Reducing Union	764 L Union Tee
764 LR Reducing Union Tee	765 L Union Elbow	766 L Female Connector	766 LR Female Connector	766 LG Female Connector	767 LT Reducer	767 LM Reducing Port Connector
767 LP Port Connector	768 L Male Connector	768 LG Male Connector	768 LR Male Connector	768 LOK Male Connector	768 LOB Male Connector	768 LOP Male Connector
768 LO Male Connector	768 LN Male Pipe Weld Connector	768 LW Tube Socket Weld Union	769 L Male Elbow	769 LR Male Elbow	769 LN Male Pipe Weld Elbow	769 LW Socket Weld Elbow
770 L Female Elbow	771 L Male Run Tee	771 LF Female Run Tee	772 L Male Branch Tee	772 LF Female Branch Tee	774 L Bulkhead Union	774 LF Bulkhead Female Connector
774 LT Bulkhead Reducer	774 LM Bulkhead Male Connector	7102 L Union Cross	7108 L Cap	7121 L Plug	739 LF Female Adapter Tube To Pipe	739 LM Male Adapter Tube To Pipe
761 LFL Let Lok To An Adapter	762 LFL Let Lok To An Union	774 LFL Let Lok To An Bulkhead Union	961 L Male Nut	962 L Union	963 L Reducing Union	964 L Union Tee
